

National Family Caregivers Month

November 2020

November is National Family Caregivers Month in honor of the selfless service of Caregivers across the United States. Today, over five million military Caregivers support more than two million chronically ill, injured, and disabled Veterans and Servicemembers. The self-sacrifice, compassion, and dedication demonstrated by our military Caregivers exemplifies the strength of our Army and our great Nation.

Family members, friends, and neighbors, sacrifice each and every day to care for our wounded warriors and Veterans. They provide critical support to our Nation's heroes. We understand how difficult the role of a Caregiver can be and want to recognize their efforts, day in and day out.

In support of our military Caregivers, we continue to improve access to Caregiver resources and training. We recently established a monthly Headquarters, Department of the Army Caregiver Working Group to build key initiatives and address Caregiver concerns. We are also launching our Army Caregiver website this month. It will assist military Caregivers in navigating each phase of care, and provide resources to improve and optimize care. We owe it to our Caregivers, Veterans, Servicemembers and Families to ensure access to every resource is available.

We thank each and every one of our military Caregivers for the critical and compassionate care they provide each day. They are a true source of inspiration for us all. Our military Caregivers epitomize the Army's People First priority for our wounded Soldiers and Veterans. To each of our military Caregivers, we owe you a great debt of gratitude. Thanks for all that you do.

People First, Winning Matters, Army Strong!

Michael A. Grinston
Sergeant Major of the Army

James C. McConville
General, United States Army
Chief of Staff

Ryan D. McCarthy
Secretary of the Army
